

Honorable Judge Robt. Drain,

I'm writing this letter with
objection to the Motion of reducing All
Medical Coverage of Salaried Retired
Employee's under Delphi Corporation.

I was a 40 year employee under
General Motors and then the Delphi
Corporation.

I personally feel that this was
General Motors intent from day one
and with the Mis-Management of
the Delphi Corporation in Troy, Mich.
head quarters, that we were headed for
only one direction, Chapter 11.

This action is only going to put a
serious financial and stressful strain
on many, many Delphi Retirees and
their Spouses. I feel that there
has to be a Plan "B", that hasn't
been seriously looked into, even if it makes
the Over Seas Operations financially
somewhat responsible, since it was
U.S. dollars used to establish and
grow this business. I also feel that
I'm being discriminated, due to my
Age and this is another way for
Delphi's Corporate Greed to be satisfied
through the Salaried Work Force.

Your Honor, I hope you
don't follow through with the
Cancellation's of Salaried Retirements
and Life Insurances entitled to
the Retirees of the Delphi Corporation.

Thanks

GREGORY A. KOCH
